

Daily changes to your child's transportation?

Follow these guidelines

- Make sure to let us know as early as possible if there is a change in your child's transportation.
- In order to make sure the school, bus driver and the transportation office knows about a change for afternoon drop off, be sure to contact the transportation office no later than 2:00pm at (360) 276-4780.
- If your child is going home with another child, the parent of the other child needs to call us and verify that they have given permission for your child to visit.
- Getting your child to the right location is important to us. Your child's safety is our number one goal. Help us to always make that happen by following these Guidelines.
